How to Revise:

You might like to use flash cards for terminology and vocabulary. These are helpful when there is information or facts that you need to memorise (e.g. What is the word for dog in French?).

Remember to get someone to test you and practise saying the words out loud.

You could also try watching some of the videos and create some sentences incorporating the skills and vocabulary listed on this page.

Speak to your teacher if you have any questions.

Good luck! 😊
