

Y7 Geography checklist

1. Get organised

Make sure you know what topics you are being tested on in which paper.

Use your 'topic checklists' to organise your thoughts and revision material

3. Revision cards

Condense your notes and information onto revision cards.

Use different coloured cards to represent each topic or a different case study.

4. Mind maps

Organise your case studies or topic notes onto mind maps. Aim for one topic per A3 page

6. Key Terms

Study your key terms, make sure you know and use your key terms in your geography answers.

5. Memorise!

Now you've condensed your class notes you need to memorise them. Good memorisation, in my experience comes down to two things:

- Repetition
- Using the information in different formats.

I'd advise you to do a combination of the following:

- Read index cards out loud, cover and test yourself.
- Get other people to test you.
- Act it out.
- Make up songs or rhymes
- Whatever else works for you...

7. Core Knowledge

Use your core knowledge booklets for key information.
